

April 28, 2022

The Honorable Pete Buttigieg  
Secretary  
U.S. Department of Transportation  
1200 New Jersey Avenue, SE  
Washington, DC 20590

Dear Mr. Secretary:

We are 670 victims and survivors of drunk driving crashes from all 50 states. We have lost sons, daughters, husbands, wives, mothers, fathers, sisters, brothers, nieces, nephews, and best friends, and we have suffered life-changing injuries ourselves.

November 15, 2021 was a momentous and hopeful day for us and hundreds of thousands of other drunk driving victims who are represented by Mothers Against Drunk Driving. As you know, that is the day that President Biden signed the Infrastructure Investment and Jobs Act with a provision that sets the country on a path to truly end drunk driving.

That bipartisan provision calls on your Department to issue a motor vehicle safety standard in three years - with implementation two to three years later - that requires drunk driving prevention technology in all new passenger vehicles.

Mr. Secretary, we are not experts in the workings of the Federal regulatory process, but we do understand that the direction from Congress was very clear. We encourage your Department and the National Highway Traffic Safety Administration to do everything possible to meet this reasonable deadline. More than 9,400 lives every year can be saved and countless injuries prevented by drunk driving prevention technology when it is in all vehicles, and every year of delay in issuing a new standard will mean more unnecessary deaths and injuries and more grieving families like ours.

Thank you for consideration of our views, in honor of so many who are no longer with us, and in honor of survivors who continue to fight so that our stories don't become someone else's story. We are fighting for no more victims.

Sincerely,

Amanuel Abraha, Maryland
